PROFESSIONAL SUMMARY

AI Developer with 4 years of software development experience specializing in LLM integration, RAG systems, and full-stack AI application development. Currently building production AI systems for a US-based client using ChatGPT, Gemini, React, Next.js, and Python. Pega Certified Senior System Architect. Open to freelance AI development projects.

EXPERIENCE

AI Developer - Algonox Technologies, Hyderabad, India

August 2025 - Present

- Built production chatbots and conversational AI assistants integrating ChatGPT and Gemini for a US-based client, handling end-to-end development from architecture to deployment.
- Developed RAG pipelines grounding LLM responses in client documents and internal databases, improving response accuracy for business-critical queries.
- Architected multi-agent LLM systems with structured outputs and verification layers using React and Next.js frontends deployed on GCP and Vercel.
- Built custom GPT assistants and skill-based AI tools for internal workflow automation, reducing manual processing time for client teams.
- Technologies: Python, React, Next.js, ChatGPT, Gemini, LangChain, Supabase, PostgreSQL, GCP, Vercel.

Software Architect - Adqura, Hyderabad, India

August 2023 - July 2025

- Designed and implemented REST APIs and Java backend services for enterprise clients, integrating with external APIs and SOAP services.
- Built automation activities and job schedulers for data purging workflows, improving system performance and compliance with data retention policies.
- Created Java functions to extract and transform JSON data from Pega clipboard pages, ensuring correct property type mappings across integrations.
- Updated Java functions and backend services to meet Pega cloud compliance requirements across multiple client deployments.
- Achieved Pega Certified Senior System Architect (CSSA) and Pega Decisioning Consultant certifications during this role.
- Technologies: Java, Python, Pega, SOAP API, REST APIs, PostgreSQL, Oracle.

Full Stack Python Developer - Birdwood Energy, Australia (Remote)

April 2023 - August 2023

- Developed Python Azure Functions to ingest and process real-time energy data streams from multiple companies via Azure Event Hubs.
- Automated data pipelines to constantly update and retrieve live readings from Azure SQL databases, enabling real-time monitoring dashboards.
- Visualized energy data through bar graphs and charts using Matplotlib for internal reporting.
- Technologies: Python, Azure Functions, Azure Event Hubs, Azure SQL, Git.

PROJECTS

Daily Progress Report System - Personal Project

GitHub: github.com/GauravRaj6767

- AI pipeline using Gemini to transcribe supervisor voice notes and extract structured daily reports, removing the need for manual form entry on construction sites.
- Technologies: Next.js (TypeScript), Supabase, Gemini, Vercel.

Medicine Reminder App

GitHub: github.com/GauravRaj6767

- Full-stack application with a Django Ninja API backend and Next.js + Shadcn UI frontend, featuring secure multi-user authentication.
- Technologies: Django Ninja API, Next.js, Shadcn UI, Neon PostgreSQL, Railway.

E-commerce Price Comparison Tool

GitHub: github.com/GauravRaj6767/Web-Scraper

- Scrapes and compares product listings across Amazon and Flipkart using Selenium and BeautifulSoup, with a Flask-powered search interface.
- Technologies: Python, Selenium, BeautifulSoup, Flask.

TECHNICAL SKILLS

AI and LLM: ChatGPT, Gemini, Claude, LangChain, RAG Systems, Prompt Engineering, Multi-agent Pipelines

Languages: Python, JavaScript, TypeScript, Java, SQL, C

Frontend: React, Next.js, Shadcn UI, Tailwind CSS

Backend: Django, Django Ninja, Node.js, REST APIs, SOAP APIs

Databases: PostgreSQL, Supabase, Neon DB, Oracle, Azure SQL, SQLite

Cloud and DevOps: Google Cloud Platform (GCP), Microsoft Azure, Azure Functions, Vercel, Railway, Firebase

Other Tools: Pega, Git, GitHub, LangChain, Convex

EDUCATION

Bachelor of Technology, Computer Science and Engineering - Jawaharlal Nehru Technological University, Hyderabad

June 2019 - June 2023

CERTIFICATIONS

- Pega Certified Decisioning Consultant - Pegasystems, Aug 2024
- Pega Certified Senior System Architect (CSSA) - Pegasystems, Mar 2024
- Pega Certified System Architect - Pegasystems, Sep 2023
- Python (Basic) - HackerRank, Jun 2021
- Full Stack Web Development (91%) - Internshala, Aug 2022
- Problem Solving through Programming in C - IIT Kharagpur (NPTEL), Sep 2020

ACHIEVEMENTS

- Completed Google Foobar Challenge - an invite-only coding challenge by Google.
- CodeChef Rating: 1570 (2-Star, Div. 2).
- Speed-Cuber - participated in official Rubik's Cube competitions organized by the World Cube Association (WCA).
- Competed in Basketball Clusters at university level.
